Home » Life » Remote Control » Polaroid Portable Dvd Player with 720p HD High Definition Audio and View Larger Images. We also offer a portable DVD player with an external power supply for the user to use it when. Polaroid SD-E621 Portable DVD Player - HD 1080p w / Bluetooth. Customer reviews 4,724 reviews | rated 4.5 out of 5 stars by brianfan The remote, i.e., the waterproof part of the remote, is pretty much shot, and the battery is not particularly good, but the player itself is still in great shape. The LCD screen is bright and clear, the speaker does a good job of playing the audio, and the buttons are responsive. The player is very light and seems pretty durable. The case seems to be of solid plastic construction, and the portability has been preserved. There is a small scratch on the back of the unit, but it is hardly noticeable. Sending it in for repair is probably your best bet. Otherwise, it looks to be in good shape. It is inexpensive for a portable DVD player. I would still recommend purchasing a portable DVD player with some type of back-up battery. 4,983 reviews | rated 4.7 out of 5 stars by jrfan This is a great little player. I purchased a similar player for \$40, but this one is a much better buy! It works as expected with the included USB cable and batteries. The remote is a bit large, but for the price, it's a great value. I like the HDMI output and HDTV display. 2,772 reviews | rated 3.8 out of 5 stars by babyboo I bought this video player for my toddler in a little girls clothing for my first time buying a child's products. It's easy to set up and view photos on it. It does have a fairly bright screen and it's somewhat legible. There are a few features on it!

**HD Online Player (polaroid 1080p Hd Dash Cam Pd-e53h V)**

POLAROID PD-E53H DASHCAM BLUE 16 GB. NOTE : This driver is for a dash cam. Should be the same driver as you have on the dash cam since it. HD Online Player Polaroid 1080p Hd Dash Cam Pde53h V.
