LostWinds takes place in the 22nd Century – a time when the seafaring world’s main predators are extinct, gradually being replaced by enormous and ever-growing mechanical lifeforms. This once peaceful, technological utopia has been almost entirely destroyed by the Time Stones and is in dire need of a hero. However, a hero is not easily found. A small group of people have put together a brand new one: The ship’s captain: Hummingbird. Even though he possesses many amazing skills, Hummingbird has a crippling flaw in his DNA that may cost him his life. The law was passed in 2008 as part of the Children’s Internet Protection Act. “It made it a federal crime for anyone to knowingly build and distribute online advertisements with the intent to attract a child under the age of 13 to a commercial sex act,” the website explains. “Without this statute, a legitimate online service that inadvertently posted an advertisement linking to a child sex act would face no legal ramifications.” The law has been on the books for years. According to the same post, the recent passage of COPA was “a direct result of the shooting that occurred in Newtown last December and the national outpouring of support and concern that followed from it.” The bill passed in the Senate by unanimous consent in February and is awaiting the signature of President Barack Obama to become law. In 2012, 19-year-old Adam Lanza opened fire in a school in Newtown, Connecticut, killing 26 and injuring 27 others. The NYPD raided Craigslist in October after a man posted an ad offering \$80 to watch him dress as a schoolgirl for \$50 and participate in non-consensual sex. Police say he was arrested after showing up at the Manhattan apartment where the ad was posted. The man’
