### What's new in Fifa 22:

- **How players control the game has undergone a complete overhaul, including new ways to dribble past defenders, reliably find passes, and, of course, head the ball. Each area of the pitch has its own 360 movement with the real-world movements of the player reflected in the game.**
- **The adaptive Dribbling control in Move feels natural as you pick passing and shooting techniques that feel right for the character you're playing - and the reactions of your opponent. The more you use the tools in Move, the more you'll unlock new coaching skills, changing your movement and shot into zinging scissor kicks, long-range drives, and snapping shots.**
- **You'll build your skill sets by playing matches, picking the best style of play (Attack, Defense, or Midfield) and customizing your Starting XI, Captain, and Formation through Training Mode. Plus, every time you watch a match, you'll earn Club, National, and International Experience.**

### System Requirements: For 32-bit versions of Windows:
