Roblox is an online game platform and game creation system developed by Roblox Corporation that allows users to program games and play games created by other users. Created by David Baszucki and Erik Cassel in 2004 and released in 2006, the platform hosts user-created games of multiple genres coded in the programming language Lua. For most of Roblox's history, it was relatively small, both as a platform and a company. Roblox began to grow rapidly in the second half of the 2010s, and this growth has been accelerated by the COVID-19 pandemic. Roblox is free to play, with in-game purchases available through a virtual currency called Robux. As of August 2020, Roblox had over 164 million monthly active users, including more than half of all American children under 16. Although Roblox has received generally positive reviews from critics, it has faced criticism for its moderation, microtransactions, and exploitative practices directed toward children. Roblox is developed by a company named Roblox Corporation which was also founded in 2004 by David Baszucki and Erik Cassel. Roblox Corporation is located in Sunnyvale, California, United States and was registered on the legal firm's website in 2005 as "Roblox, Inc". The Roblox logo includes a map of the United States on it. Many games are advertised by being tagged with this logo. Click, for example, on the game "Chicken Simulator" and you get the official Roblox site with a link to the game. The site is also equipped with an alert system that prevents people from being spammed with offers for thousands of dollars as well as students-specific sections including videos, blogs, job listings, and ratings. There is an official app for Android and iOS. Big video games like "Playerunknown's Battlegrounds", with more than 53.5 million active players, have become a game genre on Roblox. The developers of a few of them are: Creator Umedz, crumpleim, nbds, yuuuuzo, Guggu, filzi, avnz, skulob, fosado, ndsm, Rains, spicytaco, and tokks. More than any other video game, "Roblox has to be created in an intuitive way. Like all things in our lives, it starts with a desire, and evolves from
