I have read many people talking about infinity flash software for the ZTE mf231, so i try it and it flash my phone perfectly. The only problem i have is that the phone is locked again after installing v1.51, anybody knows why it happened. i will really appericiate if someone could help me. Thanks!! I have read many people talking about infinity flash software for the ZTE mf231, so i try it and it flash my phone perfectly. The only problem i have is that the phone is locked again after installing v1.51, anybody knows why it happened. i will really appericiate if someone could help me. Thanks!! XDA Developers was founded by developers, for developers. It is now a valuable resource for people who want to make the most of their mobile devices, from customizing the look and feel to adding new functionality.Are you a developer?. It is very easy to use and install, as explained well by the manufacturer. Related: The prices for the Advance battery and sensor for the desktop are somewhat higher than for the battery and sensor for the 604, but the response is just as good. The pictures speak volumes The Advance 992 screen is an important differentiator, and definitely has more color than the 604's screen, which is an important differentiator too. The different color balance of the Advance screen may be a source of concern to some. They are both warm, though the 604's screen does have a bit more blue color. Full-size keys, the triple click feature, and the touch screen are pretty much unchanged. Still, the 604 provides a better image quality and is easier to use. The 604 has a better resolution. The performance is better, with "improved efficiency" of the 604. What this really means is that the Advance 992 has an Energy Star rating. At the moment, the Advanced 992 is the best Energy Star laptop in the market. The average computer user cannot tell which is the advance 992 and which the 604. The battery life is the same, but it runs for longer on the 992. The Advance 992 provides better longevity with battery. Another parameter is the power consumption, which is also the same for both, but the Advance 992 uses less energy. 7. Conclusion Here is the
