With the rise of new technology the way we communicate has changed. eBooks have been around for a. Thousands of FREE eBook designs download, search, find and make book. Book Cover Design Fonts Free Download. Intrarenal aldosterone production in conscious salt-dependent Dahl rats is modulated by aldosterone-producing adenomas. The role of aldosterone in the acute regulation of arterial pressure in Dahl salt-sensitive (DS) and salt-resistant (DR) rats was examined in conscious sodium-replete (0.9% NaCl) rats by left renal artery infusion of aldosterone (40, 80, 120, and 240 ng. kg⁻¹. min⁻¹) or vehicle. In DS rats only, infusion of aldosterone at 240 ng. kg⁻¹. min⁻¹ to increase arterial pressure by 25 +/- 4 mmHg (P less than 0.01), which is compatible with a low capacity of aldosterone to regulate arterial pressure, did not result in an increase in the production of intrarenal aldosterone. In DR rats, however, infusion of aldosterone at 240 ng. kg⁻¹. min⁻¹ induced a graded, significant increase in the production of intrarenal aldosterone to 74 +/- 4 and 136 +/- 22 ng. g tissue⁻¹. min⁻¹ (P less than 0.01 and 0.05, respectively), whereas infusion of aldosterone at 240 ng. kg⁻¹. min⁻¹ (at a lower dose of 20 ng. kg⁻¹. min⁻¹) in Dahl salt-resistant (DSR) rats induced no change in intrarenal aldosterone production. The difference in the capacity of aldosterone to regulate arterial pressure and aldosterone production as between DS and DSR rats may be due to alterations in aldosterone production in the DS animal and a lack of control of local vascular tone in the DSR animal. The control
