---

It is a programme that can be easily used by people who have a problem in typing in Telugu. It can be easily used by both beginners and experienced users. It is a very simple programme that can be installed and used with a few clicks. At the time of writing, this latest version of Anu Script Manager was a 64-bit. I have given 2 links for downloading Anu Script Manager 6.0 for Windows 10 32 bit and Windows 10 64 bit. You can download the latest version of Anu Script Manager 6.0 for free. Anu Script Manager - Anu script is a software which is a type of India script. It is a new looking script and it is quite similar to the Indic scripts. With the help of Lipikaar, we have been able to convert this script to be independent. You can use it to write on your computer or you can also print it in Telugu. It can be typed easily due to its exceptional design. Although most of the world today uses the English language, there are still many people who prefer to use the Indian Languages especially Telugu and Andhra languages. Anu script is the solution to this problem. Now you can easily write an Indian language like Telugu, English, Hindi etc. It is a font variation of the Hindi script and this enabled software to be developed by the same team of "Anu". Lipikaar Telugu Script allows the user to type Telugu/Indian languages directly on the computer. The input method of this software is unique and combines both the traditional Indian scripts along with the Latin. Lipikaar Telugu Typing Software is an ideal option for all those who are having difficulty in typing in Telugu language.
